Overview

A simulcast auction extends a physical auction experience online, allowing buyers to bid and purchase items remotely in real-time. It uses video and audio streaming technology to mirror the auctioneer's actions and item presentations. Simulcast auctions are convenient for buyers who cannot physically attend the auction, offering a virtual option to participate.

Step 1:

Sign in with the details you used
to create your profile

Step 2:

Select by double clicking on the auction you are registered for. Be sure to have sent proof of payment so you are approved to participate in the auction.
